Evaluation of the incisive papilla as a guide to anterior tooth position (Grave and Becker). 1987;57:712-4
Factors affecting the retention and fit of gold castings (Marker et al). 1987;57:425-30
A method for uniform seating pressure on castings during cementation (Scrabeck et al). 1987;57:537-9
Procedure to prevent reattachment of casts to alternate articulators by mistake (Eichhold). 1987;57:388 (Tips)
Recording and reproducing the tilt of a cast on a surveyor (Steas). 1987;57:121-5
A simplified technique for the tooth preparation of onlay castings (Seymour). 1987;57:9-11
Sprue design and its effect on the castability of ceramometal alloys (Young et al). 1987;57:160-4
Tensile strength analysis of midpontic soldering (Ferencz). 1987;57:696-703
**Cast crown**
Effect of cavity varnish on retention of cemented cast crowns (Felton et al). 1987;57:411-6
**Cast restoration**; *see also* **Cast**
The cast glass-ceramic restoration (Malament and Grossman). 1987;57:674-83
A comparison of bond strengths of adhesive cast restorations using different designs, bonding agents, and luting resins (Pegoraro and Barrack). 1987;57:133-8
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
**Casting ring liner**
An investigation of the potential biohazards associated with asbestos-substitute casting ring liners (Tulachka et al). 1987;57:108-12
**Cavity preparation**
Effect of cavity varnish on retention of cemented cast crowns (Felton et al). 1987;57:411-6
The efficacy of resin-compatible cavity varnishes in reducing dentin permeability to free monomer (Tjan et al). 1987;57:179-85
Smear removal agents: a quantitative study in vivo and in vitro (Meryon et al). 1987;57:174-9

**Ceramometal restorations**
An alternate method for establishing porcelain margins (Edge and Maccarone). 1987;57:276-7
Comparison of compressive strength of solid and hollow pontic designs for ceramometal fixed partial dentures (Rosenstein et al). 1987;57:693-6
Sprue design and its effect on the castability of ceramometal alloys (Young et al). 1987;57:160-4
**Cheek recontouring prosthesis**
A technique for fabrication of a cheek recontouring prosthesis (Fattore et al). 1987;57:329-31
**Chrome**
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
**Clay**
Cast relationship made easy (Dunkin and St. Arnault). 1987;57:126 (Tips)
**Cleft**
Resin-bonded retainers with custom-made precision attachment for anterior alveolar ridge defect in patients with cleft (Cohen et al). 1987;57:78-81
**Class I removable partial denture**
A Kennedy class I removable partial denture with a resilient liner (Todd and Holt). 1987;57:247-9
**Clicking**; *see also* **Temporomandibular joint**
Prevalence of types of temporomandibular joint clickings in subjects with missing posterior teeth (Barghi et al). 1987;57:617-20
**Clinical remount procedure**
The effect of clinical remount procedures on the comfort and success of complete dentures (Firtell et al). 1987;57:53-7
**Clutch surface change**
Effect of clutch surface changes on the computerized pantographic reproducibility index and the Fischer angle (Dupas et al). 1987;57:625-30
**Cobalt**
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
**Cold sterilization**
Dimensional changes of elastomers during cold sterilization (Johansen and Stackhouse). 1987;57:233-6

**Composite**
Bond strength of composite to metal mediated by metal adhesive promoters (Tjan et al). 1987;57:550-4
**Composite**—cont'd
Bond strength of composite rebonded to previously unetched enamel surfaces (Sheth and Reinhardt). 1987;57:439-42
Dimensional stability of silver amalgam and composite used as core materials (Oliva and Lowe). 1987;57:554-9
Esthetic modification of removable partial denture teeth with light-cured composites (Weiner et al). 1987;57:381-4
A marriage of convenience: bonds of retention pins and composites (Federick). 1987;57:270-6
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
A scanning electron microscope comparison of microfilled fixed prosthodontic resins (Strohaver and Mattie). 1987;57:559-65
Three-year clinical evaluation of composite formulations for posterior teeth (Feller et al). 1987;57:544-50
Use of a special matrix system for constructing amalgam and composite cores (Marshak et al). 1987;57:21-2
**Compressive strength**
Comparison of compressive strength of solid and hollow pontic designs for ceramometal fixed partial dentures (Rosenstein et al). 1987;57:693-6
**Computerized pantographic reproducibility index**
Effect of clutch surface changes on the computerized pantographic reproducibility index and the Fischer angle (Dupas et al). 1987;57:625-30
**Condylar path**
A comparison of various angles of the mandible with the condylar long axis (Laurell et al). 1987;57:369-74
The measurement and development of anterior guidance (Kohno and Nakano). 1987;57:620-5
**Connector**
A photoelastic study to determine the location of the nonrigid connector in a five-unit intermediate abutment prosthesis (Landry et al). 1987;57:454-7
Tensile strength analysis of midpontic soldering (Ferencz). 1987;57:696-703
Tensile strength of an alternative soldered connector (Moskowitz et al). 1987;57:301-6
**Contact**
The functional range of tooth contact in lateral gliding movements (Yaffe and Ehrlich). 1987;57:730-3
Occlusal contacts and tooth wear (Woda et al). 1987;57:85-93
The tooth contact sound as an analogue of the "quality of occlusion" (Fuller and West). 1987;57:236-43
**Contamination**
Saliva contamination and resin bonding of etched metal retainers (Cassidy and Storie). 1987;57:29-32
**Core**
Dimensional stability of silver amalgam and composite used as core materials (Oliva and Lowe). 1987;57:554-9
**Coronomaxillary space**

Dental implants. 1987;57:73-74, 198-214, 329-44, 475-87, 597-616, 715-22
A reline procedure for prostheses supported by ramus frame and mandibular staple implants (Rodriguez et al). 1987;57:658-9
Surgical placement guide for use with osseointegrated implants (Edge). 1987;57:719-22
Transfer impression for accurate adjustment of a metal coping insert for the submerged implant (Burns et al). 1987;57:484-7
**Impression**
An altered-cast impression technique that eliminates conventional cast dissecting and impression boxing (Chen et al). 1987;57:471-4
A comparison of the compatibility of elastomeric impression materials, type IV dental stones, and liquid media (Gerrow and Schneider). 1987;57:292-8
Improving reversible hydrocolloid impressions of subgingival areas (Nichols and Woelfel). 1987;57:11-4
Incidence of impression material found in the gingival sulcus after impression procedure for fixed partial dentures (Marshak et al). 1987;57:306-8
A study of bubbles in a rubber elastomer manipulated under clinical conditions (Stackhouse et al). 1987;57:591-6
Tongue position in relation to edentulous mandibular impressions (Kotkin and Slabbert). 1987;57:458-62
**Impression**—cont'd
Transfer impression for accurate adjustment of a metal coping insert for the submerged implant (Burns et al). 1987;57:484-7
**Incisal angle**
The measurement and development of anterior guidance (Kohno and Nakano). 1987;57:620-5
**Incisive papilla**
Evaluation of the incisive papilla as a guide to anterior tooth position (Grave and Becker). 1987;57:712-4
**Infection**
Bacterial penetration around amalgam restorations (Fayyad and Ball). 1987;57:571-4
Response of processed resilient denture liners to *Candida albicans* (Burns et al). 1987;57:507-12
**Interim prosthesis**
An interim prosthesis for the glossectomy patient (Izdebski et al). 1987;57:608-11
**Internal derangement**; *see also* **Temporomandibular joint**
Magnetic resonance imaging in confirming internal derangement of the temporomandibular joint (Cirbus et al). 1987;57:488-94
**Interocclusal index**
A method for uniform seating pressure on castings during cementation (Scrabeck et al). 1987;57:537-9
**Intraoral dental light**
Intraoral dental lights: test and evaluation (Young et al). 1987;57:99-107

**Jaw movement**
A review of masticatory muscle function (Wood). 1987;57:222-32
**Joint, temporomandibular**; *see* **Temporomandibular joint**

K

**Kennedy class I partial denture**
A Kennedy class I removable partial denture with a resilient liner (Todd and Holt). 1987;57:247-9

L

**Laryngectomy**
A custom speech valve retainer for the laryngectomee (Andres et al). 1987;57:208-14
A custom tracheostoma valve retainer for the laryngectomy patient (Jacob and Bowman). 1987;57:479-82
**Leakage**
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
**Letters**
Letters. 1987;57:254, 389-90, 661-2
**Light**
Intraoral dental lights: test and evaluation (Young et al). 1987;57:99-107
**Light curing**
Esthetic modification of removable partial denture teeth with light-cured composites (Weiner et al). 1987;57:381-4
The staining characteristics, transverse strength, and microhardness of a visible light-cured denture base material (Khan et al). 1987;57:384-6
**Liner**
An investigation of the potential biohazards associated with asbestos-substitute casting ring liners (Tulachka et al). 1987;57:108-12
A Kennedy class I removable partial denture with a resilient liner (Todd and Holt). 1987;57:247-9
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
Potential health hazards of ceramic ring lining material (Davis). 1987;57:362-9
Response of processed resilient denture liners to *Candida albicans* (Burns et al). 1987;57:507-12
**Liquid media**
A comparison of the compatibility of elastomeric impression materials, type IV dental stones, and liquid media (Gerrow and Schneider). 1987;57:292-8

**Loops, retention**
Adding retention loops to partial dentures (Lieberman and Weinstein). 1987;57:526-7
**Lost salt procedure**
Bond strengths of the lost salt procedure: a new retention method for resin-bonded fixed prostheses (Moon). 1987;57:435-9
**Luting media**; *see also specific medium*
A comparison of bond strengths of adhesive cast restorations using different designs, bonding agents, and luting resins (Pegoraro and Barrack). 1987;57:133-8

M

**Magnetic resonance imaging**
Magnetic resonance imaging in confirming internal derangement of the temporomandibular joint (Cirbus et al). 1987;57:488-94
**Mandible**
Autogenous bone grafts for atrophic edentulous mandibles: a final report (Curtis et al). 1987;57:73-8
A comparison of various angles of the mandible with the condylar long axis (Laurell et al). 1987;57:369-74
The influence of anterior coupling on mandibular movement (Brose and Tanquist). 1987;57:345-53
Tongue position in relation to edentulous mandibular impressions (Kotkin and Slabbert). 1987;57:458-62
**Mandibular alveolar ridge**
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
**Mandibular staple implant**
A reline procedure for prostheses supported by ramus frame and mandibular staple implants (Rodriguez et al). 1987;57:658-9
**Margin**
An alternate method for establishing porcelain margins (Edge and Maccarone). 1987;57:276-7
The relationship of the position of crown margins to gingival health (Orkin et al). 1987;57:421-4
Restorative margins and periodontal health: a new look at an old perspective (Block). 1987;57:683-9
**Masticatory muscle**
Influence of group function and canine guidance on electromyographic ativity of elevator muscles (Manns et al). 1987;57:494-501
A review of masticatory muscle function (Wood). 1987;57:222-32
**Matrix**
Extraoral matrix for reconstruction of damaged teeth (Ulusoy). 1987;57:145-7
A hybrid matrix retainer for two-surface proximal restorations (Re and Kaiser). 1987;57:252-3 (Tips)
Matrix band application for the occlusolingual or occlusobuccal amalgam restoration (Gildersleeve et al). 1987;57:387-8 (Tips)
Use of a special matrix system for constructing amalgam and composite cores (Marshak et al). 1987;57:21-2
**Maxillary denture**; *see also* **Maxillofacial prosthetics**
The coronomaxillary space: literature review and anatomic description (Arbree et al). 1987;57:186-90
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9
Evaluation of the incisive papilla as a guide to anterior tooth position (Grave and Becker). 1987;57:712-4
The maxillary complete denture opposing natural teeth: problems and some solutions (Koper). 1987;57:704-7
**Maxillary resection**
Physiologic responses to maxillary resection and subsequent obturation (Minsley et al). 1987;57:338-44
**Maxillofacial prosthetics**; *see also* **Maxillary denture**
Alternative prosthodontic technique for tissue-integrated prostheses (Rasmussen). 1987;57:198-204
Maxillofacial prosthetics. 1987;57:73-84, 198-214, 329-44, 475-87, 597-616, 715-22
An overview of the maxillofacial prosthesis as a speech rehabilitation aid (Groetsema). 1987;57:204-8
**Metal**
Bond strengtl. of composite to metal mediated by metal adhesive promoters (Tjan et al). 1987;57:550-4
**Metal**—cont'd
Bonding of dental porcelain to ceramic-metal alloys (Usalo et al). 1987;57:26-9
Bone-metal interface in osseointegration (Albrektsson and Jacobsson). 1987;57:597-607
Comparison of fracture strength of porcelain-veneered-to-high noble and base metal alloys (Barghi et al). 1987;57:23-6
Compressive strengths of a new foil and porcelain-fused-to-metal crowns (Brukl and Ocampo). 1987;57:404-10
Effect of electrodeposition of gold on porcelain-to-metal bond strength (Daftary and Donovan). 1987;57:41-6
Effect of porcelain thickness and type of metal-ceramic alloy on color (Jacobs et al). 1987;57:138-45
Improved adhesion of denture acrylic resins to base metal alloys (Zurasky and Duke). 1987;57:520-4
Metal framework design for an onlay removable partial denture (Todd and Holt). 1987;57:116-7
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
The microscopic appearance and effect of toothbrushing on extrinsically stained metal-ceramic restorations (Bativala et al). 1987;57:47-52
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
Transfer impression for accurate adjustment of a metal coping insert for the submerged implant (Burns et al). 1987;57:484-7
**Microbiology**
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
**Microleakage**
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
**Microscopy**
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
A scanning electron microscope comparison of microfilled fixed prosthodontic resins (Strohaver and Mattie). 1987;57:559-65
The staining characteristics, transverse strength, and microhardness of a visible light-cured denture base material (Khan et al). 1987;57:384-6
**Microwave**
Microwave polymerization of acrylic resins used in dental prostheses (De Clerck). 1987;57:650-8
**Midpontic soldering**
Tensile strength analysis of midpontic soldering (Ferencz). 1987;57:696-703
**Missing teeth**
Prevalence of types of temporomandibular joint clickings in subjects with missing posterior teeth (Barghi et al). 1987;57:617-20
**Modeling clay**
Cast relationship made easy (Dunkin and St. Arnault). 1987;57:126 (Tips)
**Molds**
The frequency of various molds in a sample of natural and artificial dentitions (Grave). 1987;57:194-7
**Monomer**
The efficacy of resin-compatible cavity varnishes in reducing dentin permeability to free monomer (Tjan et al). 1987;57:179-85
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
**Monoplane occlusion**
Functional modification of acrylic resin monoplane occlusions (Mulcahy). 1987;57:465-70
**Moulage**
A technique for making a facial moulage (Moergeli). 1987;57:253 (Tips)
**Mouth rehabilitation**
A practical approach to full mouth rehabilitation (Binkley and Binkley). 1987;57:261-6

**Mucosa**
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
**Muscle function**
Influence of group function and canine guidance on electromyographic activity of elevator muscles (Manns et al). 1987;57:494-501
A review of masticatory muscle function (Wood). 1987;57:222-32

N

**Nasopharyngeal airway tube**
A technique for making a facial moulage (Moergeli). 1987;57:253 (Tips)
**Natural dentition**
The frequency of various molds in a sample of natural and artificial dentitions (Grave). 1987;57:194-7
**Neck cancer**
Nutritional considerations of the head and neck cancer patient: some correlations in a retrospective study (Jackson et al). 1987;57:475-8
**Nocturnal bruxism**
The sleep-wear syndrome (Colquitt). 1987;57:33-41
**Nonrigid connector**
A photoelastic study to determine the location of the nonrigid connector in a five-unit intermediate abutment prosthesis (Landry et al). 1987;57:454-7
**Nutrition**
Nutritional considerations of the head and neck cancer patient: some correlations in a retrospective study (Jackson et al). 1987;57:475-8

O

**Obturator**
Evaluation of occlusal force in patients with obturator defects (Shipman). 1987;57:81-4
Physiologic responses to maxillary resection and subsequent obturation (Minsley et al). 1987;57:338-44
**Occlusal force**
Evaluation of occlusal force in patients with obturator defects (Shipman). 1987;57:81-4
**Occlusal splint**
A simplified technique for occlusal splint fabrication (Haddix). 1987;57:249-51
**Occlusalgraph**
The occlusalgraph: a graphic representation of photocclusion data (Amsterdam et al). 1987;57:94-8
**Occlusion**
Evaluation of occlusal force in patients with obturator defects (Shipman). 1987;57:81-4
Functional modification of acrylic resin monoplane occlusions (Mulcahy). 1987;57:465-70
The functional range of tooth contact in lateral gliding movements (Yaffe and Ehrlich). 1987;57:730-3
Occlusal contacts and tooth wear (Woda et al). 1987;57:85-93
The tooth contact sound as an analogue of the "quality of occlusion" (Fuller and West). 1987;57:236-43
**Occlusolingual or occlusobuccal amalgam restoration**
Matrix band application for the occlusolingual or occlusobuccal amalgam restoration (Gildersleeve et al). 1987;57:387-8 (Tips)
**Odontic trisection**
Odontic trisection: an alternative therapy (Fournier). 1987;57:397-400
**Onlay**
Metal framework design for an onlay removable partial denture (Todd and Holt). 1987;57:116-7
Restoration of posterior pulpless teeth: amalgam overlay versus cast gold onlay restoration (Liberman et al). 1987;57:540-3
A simplified technique for the tooth preparation of onlay castings (Seymour). 1987;57:9-11
**Operative dentistry**
Fixed prosthodontics and operative dentistry. 1987;57:1-52, 133-85, 261-308, 397-457, 537-80, 669-703
**Orbital prosthesis**
Macrocellular silicone foam for mechanically retaining orbital prostheses (Townend et al). 1987;57:611-6
**Osseointegration**
Bone-metal interface in osseointegration (Albrektsson and Jacobsson). 1987;57:597-607
Surgical placement guide for use with osseointegrated implants (Edge). 1987;57:719-22
**Overdenture**
Vertical alveolar bone changes related to overdenture abutment teeth (Walters). 1987;57:309-14
**Overlapping specialties**
Perceived or actual overlap between the scope of prosthodontics and other recognized dental specialities (Landesman et al). 1987;57:113-5
**Overlay**
Restoration of posterior pulpless teeth: amalgam overlay versus cast gold onlay restoration (Liberman et al). 1987;57:540-3

P

**Pad stop**
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
**Palatal mucosa**
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
**Palate**
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9
**Palladium**
Strength properties of soldered joints for a gold-palladium alloy and a palladium alloy (Lorenzana et al). 1987;57:450-4
Tensile strength of postceramic solder joints with a palladium-silver alloy (Boudrias and Nicholls). 1987;57:165-71
**Pantograph**
Effect of clutch surface changes on the computerized pantographic reproducibility index and the Fischer angle (Dupas et al). 1987;57:625-30
An in vitro study of an electronic pantograph (Anderson et al). 1987;57:577-80
**Papilla**
Evaluation of the incisive papilla as a guide to anterior tooth position (Grave and Becker). 1987;57:712-4
**Parallelometer**
Recording and reproducing the tilt of a cast on a surveyor (Steas). 1987;57:121-5
**Partial denture;** *see* **Fixed partial denture; Removable partial denture**
**Periodontics**
Considerations for furcation treatment. Part II: periodontal therapy (Baima). 1987;57:400-4
Periodontal attachment loss associated with proximal tooth restorations (Chen et al). 1987;57:416-20
Restorative margins and periodontal health: a new look at an old perspective (Block). 1987;57:683-9
Root stresses with tapered-end post design in periodontally compromised teeth (Pao et al). 1987;57:281-6
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64
**Phosphate monomer resin**
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
**Photocclusion**
The occlusalgraph: a graphic representation of photocclusion data (Amsterdam et al). 1987;57:94-8
**Photoelasticity**
A photoelastic study to determine the location of the nonrigid connector in a five-unit intermediate abutment prosthesis (Landry et al). 1987;57:454-7

**Pin**
Cross-splinting a weakened tooth with a horizontal pin: a new method (Mondelli et al). 1987;57:442-5
A marriage of convenience: bonds of retention pins and composites (Federick). 1987;57:270-6
Retentive strength of pins cut with rotary instruments (Richeson and Sarrett). 1987;57:14-6
**Placement guide**
Surgical placement guide for use with osseointegrated implants (Edge). 1987;57:719-22
**Plaque**
The cast glass-ceramic restoration (Malament and Grossman). 1987;57:674-83
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
**Polishing**
Immediate and long-term in vivo effects of polishing on enamel and dentin (Christensen and Bangerter). 1987;57:150-60
**Polymerization**
Microwave polymerization of acrylic resins used in dental prostheses (De Clerck). 1987;57:650-8
**Pontics**
Comparison of compressive strength of solid and hollow pontic designs for ceramometal fixed partial dentures (Rosenstein et al). 1987;57:693-6
Tensile strength analysis of midpontic soldering (Ferencz). 1987;57:696-703
**Porcelain**
An alternate method for establishing porcelain margins (Edge and Maccarone). 1987;57:276-7
Bonding of dental porcelain to ceramic-metal alloys (Uusalo et al). 1987;57:26-9
Comparison of fracture strength of porcelain-veneered-to-high noble and base metal alloys (Barghi et al). 1987;57:23-6
Compressive strengths of a new foil and porcelain-fused-to-metal crowns (Brukl and Ocampo). 1987;57:404-10
Effect of electrodeposition of gold on porcelain-to-metal bond strength (Daftary and Donovan). 1987;57:41-6
Effect of porcelain thickness and type of metal-ceramic alloy on color (Jacobs et al). 1987;57:138-45
**Post**
Effects of cementing on retention of a prefabricated screw post (Millstein et al). 1987;57:171-4
An evaluation of post length within the elastic limits of dentin (Leary et al). 1987;57:277-81
Root stresses with tapered-end post design in periodontally compromised teeth (Pao et al). 1987;57:281-6
**Posterior teeth**
Effects of composite restorations on resistance to cuspal fracture in posterior teeth (Joynt et al). 1987;57:431-5
**Prefabrication**
Effects of cementing on retention of a prefabricated screw post (Millstein et al). 1987;57:171-4
**Prenatal development**
Prenatal developmental process of human temporomandibular joint (Morimoto et al). 1987;57:723-30
**Preventive dentistry**
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64
**Prosthesis**; *see also specific prosthesis*
Bond strengths of the lost salt procedure: a new retention method for resin-bonded fixed prostheses (Moon). 1987;57:435-9
Distribution of acid-etched, fixed, and removable prostheses in dental patients (Gustavsen and Katz). 1987;57:374-9
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9
An interim prosthesis for the glossectomy patient (Izdebski et al). 1987;57:608-11
Macrocellular silicone foam for mechanically retaining orbital prostheses (Townend et al). 1987;57:611-6
Microwave polymerization of acrylic resins used in dental prostheses (De Clerck). 1987;57:650-8
**Prosthesis**—cont'd
A photoelastic study to determine the location of the nonrigid connector in a five-unit intermediate abutment prosthesis (Landry et al). 1987;57:454-7
A reline procedure for prostheses supported by ramus frame and mandibular staple implants (Rodriguez et al). 1987;57:658-9
A technique for fabrication of a cheek recontouring prosthesis (Fattore et al). 1987;57:329-31
**Prosthodontics**
Alternative prosthodontic technique for tissue-integrated prostheses (Rasmussen). 1987;57:198-204
Perceived or actual overlap between the scope of prosthodontics and other recognized dental specialities (Landesman et al). 1987;57:113-5
Use of a specially formed drill in fixed prosthodontics (Driscoll and Allen). 1987;57:768-71
**Provisional restoration**
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
**Pulp**
Biocompatibility of surface-sealed dental materials against exposed pulps (Cox et al). 1987;57:1-8
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64
**Pulpless teeth**
Restoration of posterior pulpless teeth: amalgam overlay versus cast gold onlay restoration (Liberman et al). 1987;57:540-3

## Q

**Quenching**
The effect of the temperature at quenching on the mechanical properties of casting alloys (DuBois et al). 1987;57:566-71

## R

**Radiograph**
A comparison of various angles of the mandible with the condylar long axis (Laurell et al). 1987;57:369-74

**Reattachment**
Procedure to prevent reattachment of casts to alternate articulators by mistake (Eichhold). 1987;57:388 (Tips)
**Reconstruction**
Extraoral matrix for reconstruction of damaged teeth (Ulusoy). 1987;57:145-7
A practical approach to full mouth rehabilitation (Binkley and Binkley). 1987;57:261-6
Reconstructive materials for endodontically treated teeth (Taleghani and Morgan). 1987;57:446-9
**Recontouring**
A technique for fabrication of a cheek recontouring prosthesis (Fattore et al). 1987;57:329-31
**Rehabilitation**
An overview of the maxillofacial prosthesis as a speech rehabilitation aid (Groetsema). 1987;57:204-8
A practical approach to full mouth rehabilitation (Binkley and Binkley). 1987;57:261-6
**Reinforced heat-processed acrylic resin**
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
**Relief**
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
**Reline**
Evaluation of hard direct reline resins (Bunch et al). 1987;57:512-9
A reline procedure for prostheses supported by ramus frame and mandibular staple implants (Rodriguez et al). 1987;57:658-9

**Remount procedure**
The effect of clinical remount procedures on the comfort and success of complete dentures (Firtell et al). 1987;57:53-7
**Removable partial denture**; *see also* **Removable prosthodontics**
Abutment tooth movement related to fit of a removable partial denture (Eick et al). 1987;57:66-72

Effect of clutch surface changes on the computerized pantographic reproducibility index and the Fischer angle (Dupas et al). 1987;57:625-30
**Research and education**
Research and education. 1987;57:99-115, 233-46, 362-79, 507-19, 631-49, 734-64
**Resection**
Odontic trisection: an alternative therapy (Fournier). 1987;57:397-400
Physiologic responses to maxillary resection and subsequent obturation (Minsley et al). 1987;57:338-44
**Residual ridge**
Fabrication of a sectional surgical stent for hydroxyapatite augmentation for the edentulous residual ridge (Yard and Latta). 1987;57:482-4
**Resilient liner**
A Kennedy class I removable partial denture with a resilient liner (Todd and Holt). 1987;57:247-9
Response of processed resilient denture liners to *Candida albicans* (Burns et al). 1987;57:507-12
A silicone rubber spacer for processed resilient liner in removable prosthodontics (Bolouri). 1987;57:117-21
**Resin**
Bond strengths of the lost salt procedure: a new retention method for resin-bonded fixed prostheses (Moon). 1987;57:435-9
A comparison of bond strengths of adhesive cast restorations using different designs, bonding agents, and luting resins (Pegoraro and Barrack). 1987;57:133-8
Dimensional stability of dentures processed in boilable acrylic resins: a comparative study (Polyzois et al). 1987;57:639-47
Effects of composite restorations on resistance to cuspal fracture in posterior teeth (Joynt et al). 1987;57:431-5
The efficacy of resin-compatible cavity varnishes in reducing dentin permeability to free monomer (Tjan et al). 1987;57:179-85
Evaluation of hard direct reline resins (Bunch et al). 1987;57:512-9
Functional modification of acrylic resin monoplane occlusions (Mulcahy). 1987;57:465-70
**Resin**—cont'd
Improved adhesion of denture acrylic resins to base metal alloys (Zurasky and Duke). 1987;57:520-4
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
Microwave polymerization of acrylic resins used in dental prostheses (De Clerck). 1987;57:650-8
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
Resin-bonded retainers with custom-made precision attachment for anterior alveolar ridge defect in patients with cleft (Cohen et al). 1987;57:78-81
Saliva contamination and resin bonding of etched metal retainers (Cassidy and Storie). 1987;57:29-32
A scanning electron microscope comparison of microfilled fixed prosthodontic resins (Strohaver and Mattie). 1987;57:559-65
**Resistance**
In vitro resistance of extensive amalgam restorations using various retention methods (Plasmans et al). 1987;57:16-20
**Resorption**
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
**Restoration**
Bacterial penetration around amalgam restorations (Fayyad and Ball). 1987;57:571-4
Biocompatibility of surface-sealed dental materials against exposed pulps (Cox et al). 1987;57:1-8
The cast glass-ceramic restoration (Malament and Grossman). 1987;57:674-83
A comparison of bond strengths of adhesive cast restorations using different designs, bonding agents, and luting resins (Pegoraro and Barrack). 1987;57:133-8
Effects of composite restorations on resistance to cuspal fracture in posterior teeth (Joynt et al). 1987;57:431-5
Evaluation of finishing techniques for assessing surface roughness of amalgam restorations (Ulusoy et al). 1987;57:286-92
A hybrid matrix retainer for two-surface proximal restorations (Re and Kaiser). 1987;57:252-3 (Tips)
Matrix band application for the occlusolingual or occlusobuccal amalgam restoration (Gildersleeve et al). 1987;57:387-8 (Tips)
A method for uniform seating pressure on castings during cementation (Scrabeck et al). 1987;57:537-9
The microscopic appearance and effect of toothbrushing on extrinsically stained metal-ceramic restorations (Bativala et al). 1987;57:47-52
Periodontal attachment loss associated with proximal tooth restorations (Chen et al). 1987;57:416-20
Reconstructive materials for endodontically treated teeth (Taleghani and Morgan). 1987;57:446-9
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64
Restoration of posterior pulpless teeth: amalgam overlay versus cast gold onlay restoration (Liberman et al). 1987;57:540-3
Restorative margins and periodontal health: a new look at an old perspective (Block). 1987;57:683-9
Smear removal agents: a quantitative study in vivo and in vitro (Meryon et al). 1987;57:174-9
A study of procedures for burnishing amalgam restorations (Bauer). 1987;57:669-73
In vitro resistance of extensive amalgam restorations using various retention methods (Plasmans et al). 1987;57:16-20
**Retainer**; *see* **Retention**
**Retention**
Adding retention loops to partial dentures (Lieberman and Weinstein). 1987;57:526-7
Bond strengths of the lost salt procedure: a new retention method for resin-bonded fixed prostheses (Moon). 1987;57:435-9
A custom tracheostoma valve retainer for the laryngectomy patient (Jacob and Bowman). 1987;57:479-82

**Retention**—cont'd
Effect of cavity varnish on retention of cemented cast crowns (Felton et al). 1987;57:411-6
Factors affecting the retention and fit of gold castings (Marker et al). 1987;57:425-30
A hybrid matrix retainer for two-surface proximal restorations (Ré and Kaiser). 1987;57:252-3 (Tips)
In vitro resistance of extensive amalgam restorations using various retention methods (Plasmans et al). 1987;57:16-20
A marriage of convenience: bonds of retention pins and composites (Federick). 1987;57:270-6
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
Minimizing problems in fitting, seating, and cementation of fixed prosthodontic retainers (Bell). 1987;57:266-70
Resin-bonded retainers with custom-made precision attachment for anterior alveolar ridge defect in patients with cleft (Cohen et al). 1987;57:78-81
Saliva contamination and resin bonding of etched metal retainers (Cassidy and Storie). 1987;57:29-32
Stabilized bases using available undercuts for retention and stability (Coffield). 1987;57:525
**Reversible hydrocolloid impression**
Improving reversible hydrocolloid impressions of subgingival areas (Nichols and Woelfel). 1987;57:11-4
**Ridge defect**; *see also* **Alveolar ridge**
Incidence of anterior ridge deformities in partially edentulous patients (Abrams et al). 1987;57:191-4
Resin-bonded retainers with custom-made precision attachment for anterior alveolar ridge defect in patients with cleft (Cohen et al). 1987;57:78-81
**Ring lining**
An investigation of the potential biohazards associated with asbestos-substitute casting ring liners (Tulachka et al). 1987;57:108-12
Potential health hazards of ceramic ring lining material (Davis). 1987;57:362-9
**Root**
Considerations for furcation treatment. Part II: periodontal therapy (Baima). 1987;57:400-4
Root stresses with tapered-end post design in periodontally compromised teeth (Pao et al). 1987;57:281-6
**Rotary instrument**
Retentive strength of pins cut with rotary instruments (Richeson and Sarrett). 1987;57:14-6
**Rubber**
A silicone rubber spacer for processed resilient liner in removable prosthodontics (Bolouri). 1987;57:117-21
A study of bubbles in a rubber elastomer manipulated under clinical conditions (Stackhouse et al). 1987;57:591-6

S

**Saliva**
The relationship of drug use to denture functions and saliva flow rate in a geriatric population (Kreher et al). 1987;57:631-8
Saliva: a significant factor in removable prosthodontic treatment (Edgerton et al). 1987;57:57-66
Saliva contamination and resin bonding of etched metal retainers (Cassidy and Storie). 1987;57:29-32
**Salt**
Bond strengths of the lost salt procedure: a new retention method for resin-bonded fixed prostheses (Moon). 1987;57:435-9
**Scanning electron microscopy**; *see also* **Microscopy**
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
A scanning electron microscope comparison of microfilled fixed prosthodontic resins (Strohaver and Mattie). 1987;57:559-65
**Screw post**
Effects of cementing on retention of a prefabricated screw post (Millstein et al). 1987;57:171-4
**Seating**
A method for uniform seating pressure on castings during cementation (Scarbeck et al). 1987;57:537-9
Minimizing problems in fitting, seating, and cementation of fixed prosthodontic retainers (Bell). 1987;57:266-70
**Sectional surgical stent**
Fabrication of a sectional surgical stent for hydroxyapatite augmentation for the edentulous residual ridge (Yard and Latta). 1987;57:482-4
**Segmented framework**
The segmented framework removable partial denture (Hansen and Singer). 1987;57:765-8
***Serratia marcescens***
Bacterial penetration around amalgam restorations (Fayyad and Ball). 1987;57:571-4
**Silicone**
Macrocellular silicone foam for mechanically retaining orbital prostheses (Townend et al). 1987;57:611-6
A silicone rubber spacer for processed resilient liner in removable prosthodontics (Bolouri). 1987;57:117-21
**Silver**
Dimensional stability of silver amalgam and composite used as core materials (Oliva and Lowe). 1987;57:554-9
**Sleep**
The sleep-wear syndrome (Colquitt). 1987;57:33-41
**Smear removal**
Smear removal agents: a quantitative study in vivo and in vitro (Meryon et al). 1987;57:174-9
**Soft liner**
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
**Soldering**
Improved fixed partial denture soldering (St. Arnault et al). 1987;57:528-9 (Tips)
Strength properties of soldered joints for a gold-palladium alloy and a palladium alloy (Lorenzana et al). 1987;57:450-4
Tensile strength of an alternative soldered connector (Moskowitz et al). 1987;57:301-6
Tensile strength of postceramic solder joints with a palladium-silver alloy (Boudrias and Nicholls). 1987;57:165-71
Tensile strength analysis of midpontic soldering (Ferencz). 1987;57:696-703
**Spacer**
A silicone rubber spacer for processed resilient liner in removable prosthodontics (Bolouri). 1987;57:117-21
**Specialties**
Perceived or actual overlap between the scope of prosthodontics and other recognized dental specialties (Landesman et al). 1987;57:113-5
**Speech**
A custom speech valve retainer for the laryngectomee (Andres et al). 1987;57:208-14
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9
An interim prosthesis for the glossectomy patient (Izdebski et al). 1987;57:608-11
An overview of the maxillofacial prosthesis as a speech rehabilitation aid (Groetsema). 1987;57:204-8
**Speech valve retainer**
A custom speech valve retainer for the laryngectomee (Andres et al). 1987;57:208-14
**Splint**
Cross-splinting a weakened tooth with a horizontal pin: a new method (Mondelli et al). 1987;57:442-5
A simplified technique for occlusal splint fabrication (Haddix). 1987;57:249-51
**Sprue**
Sprue design and its effect on the castability of ceramometal alloys (Young et al). 1987;57:160-4
**Stability**
Retentive strength of pins cut with rotary instruments (Richeson and Sarrett). 1987;57:14-6
Stabilized bases using available undercuts for retention and stability (Coffield). 1987;57:525

**Staining**
The microscopic appearance and effect of toothbrushing on extrinsically stained metal-ceramic restorations (Bativala et al). 1987; 57:47-52
The staining characteristics, transverse strength, and microhardness of a visible light-cured denture base material (Khan et al). 1987;57:384-6
**Staple implant**
A reline procedure for prostheses supported by ramus frame and mandibular staple implants (Rodriguez et al). 1987; 57:658-9
**Stent**
Fabrication of a sectional surgical stent for hydroxyapatite augmentation for the edentulous residual ridge (Yard and Latta). 1987;57:482-4
**Stereophotogrammetry**
Abutment tooth movement measured in vivo by using stereophotogrammetry (Browning et al). 1987;57:323-8
**Sterilization**
Dimensional changes of elastomers during cold sterilization (Johansen and Stackhouse). 1987;57:233-6
**Stoma**
A custom tracheostoma valve retainer for the laryngectomy patient (Jacob and Bowman). 1987;57:479-82
**Stomatitis**
Antibody titre changes in patients undergoing treatment for denture stomatitis (Fouche et al). 1987;57:587-91
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
**Stone**
A comparison of the compatibility of elastomeric impression materials, type IV dental stones, and liquid media (Gerrow and Schneider). 1987;57:292-8
**Storage**
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
**Stylomandibular ligament**
Ernest syndrome as a consequence of stylomandibular ligament injury: a report of 68 patients (Shankland). 1987;57:501-6
**Subcrevicular attachment complex**
Restorative margins and periodontal health: a new look at an old perspective (Block). 1987;57:683-9
**Subgingival area**
Improving reversible hydrocolloid impressions of subgingival areas (Nichols and Woelfel). 1987;57:11-4
**Submerged implant**
Transfer impression for accurate adjustment of a metal coping insert for the submerged implant (Burns et al). 1987;57:484-7
**Surface roughness**
Evaluation of finishing techniques for assessing surface roughness of amalgam restorations (Ulusoy et al). 1987;57:286-92
**Surface-sealed dental material**
Biocompatibility of surface-sealed dental materials against exposed pulps (Cox et al). 1987;57:1-8
**Surgical placement guide**
Surgical placement guide for use with osseointegrated implants (Edge). 1987;57:719-22
**Surgical stent**
Fabrication of a sectional surgical stent for hydroxyapatite augmentation for the edentulous residual ridge (Yard and Latta). 1987;57:482-4
**Surveyor**
Recording and reproducing the tilt of a cast on a surveyor (Steas). 1987;57:121-5
**Swallowing**
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9
